

Moccasin Wallow Road Improvements from U.S. 41 to U.S. 301 Bi-Weekly Update | October 7, 2024

Segment 1 (U.S. Highway 301 to 115th Avenue East):

ANTICIPATED COST AND CONSTRUCTION SCHEDULE

- Construction Cost:** \$28 Million
- Construction Start:** January 2023
- Completion Date:** Fall 2024

This roadway project will widen approximately one mile of Moccasin Wallow Road from two lanes to four lanes (two in each direction) between U.S. 301 and 115th Avenue East. This roadway segment will also include a 12-foot-wide multi-use path on the north side of Moccasin Wallow Road, a 6-foot-wide sidewalk on the south side, and 7-foot-wide bicycle lanes in each direction.

Median openings will be provided for access to residential communities and the addition of pedestrian-activated crossings, street lighting, signalized intersections, driveway modifications, and dedicated turn lanes will improve safety and traffic operations throughout the roadway corridor.

This segment also includes construction of a roundabout at the U.S. 301 and Moccasin Wallow Road intersection for more efficient traffic flow and improved safety. Roadway drainage will be improved and stormwater run off will be directed to new linear ponds along Moccasin Wallow Road and county right-of-way near the U.S. 301 roundabout.

Current Activities:

Sodding, paving, median and traffic signal work, and the installation of streetlighting, curbing and sidewalks are currently underway. Occasional traffic shifts will be implemented on Moccasin Wallow Road through mid-October 2024, from west of 115th Avenue East to U.S. 301, to accommodate paving operations. Travelers are reminded to exercise caution and observe the new traffic patterns, especially at the intersections, as well as construction vehicles operating within the project area.

Moccasin Wallow Road Improvements from U.S. 41 to U.S. 301 Bi-Weekly Update | October 7, 2024

Segment 2 (115th Avenue East to Bayside Community Church):

ANTICIPATED COST AND CONSTRUCTION SCHEDULE

- Construction Cost:** \$35 Million
- Construction Start:** Fall 2024
- Completion Date:** Mid 2026

This roadway project will widen approximately 1.6 miles of Moccasin Wallow Road from two lanes to four lanes (two in each direction) between 115th Avenue East and Bayside Community Church. This roadway segment will also include a 12-foot-wide multi-use path on the north side of Moccasin Wallow Road, a 6-foot-wide sidewalk on the south side, and 7-foot-wide bicycle lanes in each direction.

Median openings will be provided for access to residential communities and the addition of pedestrian-activated crossings, street lighting, signalized intersections, driveway modifications, and dedicated turn lanes will improve safety and traffic operations. Roadway drainage will be improved and stormwater run-off will be directed to new linear ponds along Moccasin Wallow Road.

Current Activities:

Construction is currently scheduled to begin on November 4, 2024 (weather permitting).

Segment 3 (Bayside Community Church to Buffalo Road (east of I-75)):

ANTICIPATED COST AND CONSTRUCTION SCHEDULE

- Construction Cost:** \$43 Million
- Construction Start:** Spring 2025
- Completion Date:** Early 2027

This roadway project will widen approximately 1.8 miles of Moccasin Wallow Road from two lanes to four lanes (two in each direction) between Bayside Community Church and Buffalo Road. This roadway segment will also include a 12-foot-wide multi-use path on the north side of Moccasin Wallow Road, a 6-foot-wide sidewalk on the south side, and 7-foot-wide bicycle lanes in each direction.

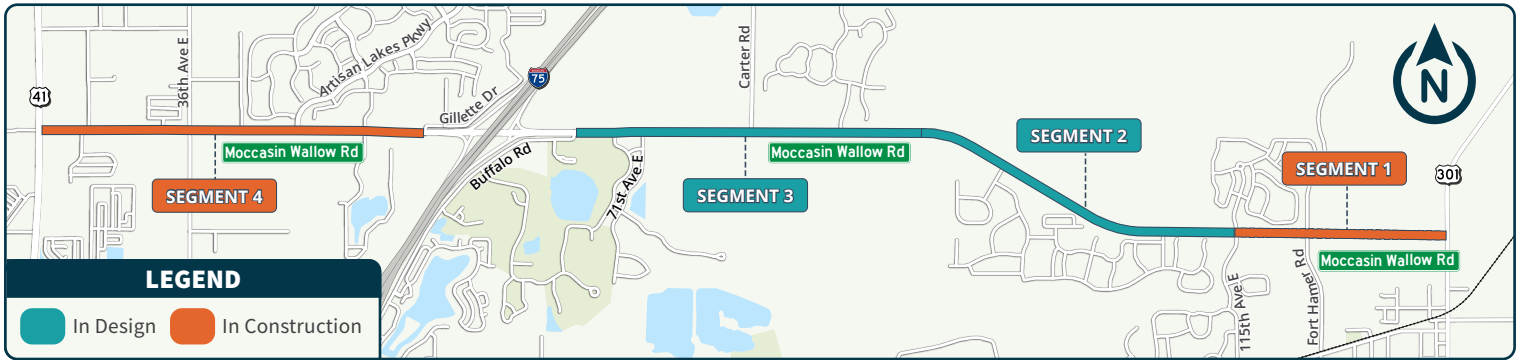

Median openings will be provided for access to residential communities and the addition of pedestrian activated crossings, street lighting, signalized intersections, driveway modifications, and dedicated turn lanes will improve safety and traffic operations. Roadway drainage will be improved and stormwater run-off will be directed to new linear ponds along Moccasin Wallow Road.

Current Activities:

This project is currently in design. Land acquisition and environmental permitting are ongoing.

Moccasin Wallow Road Improvements from U.S. 41 to U.S. 301 Bi-Weekly Update | October 7, 2024

Segment 4 (U.S. 41 to Gillette Drive):

ANTICIPATED COST AND CONSTRUCTION SCHEDULE

- Construction Cost:** \$49 Million
- Construction Start:** January 2023
- Completion Date:** Fall 2024

This roadway project will widen approximately 1.9 miles of Moccasin Wallow Road from two lanes to four lanes (two in each direction) between Gillette Drive (located just west of I-75) and U.S. 41. This roadway segment will also include a 12-foot-wide multi-use path on the north side of Moccasin Wallow Road, a 6-foot-wide sidewalk on the south side, and 7-foot-wide bicycle lanes in each direction.

Median openings will be provided for access to residential communities and the addition of pedestrian activated crossings, street lighting, signalized intersections, driveway modifications, and dedicated turn lanes will improve safety and traffic operations. Roadway drainage will be improved and stormwater run-off will be directed to new linear ponds along Moccasin Wallow Road.

Current Activities:

Utility work and the installation of the multi-use path, sidewalk, driveways, and curbing along Moccasin Wallow Road are underway. 40th Avenue East is currently closed at Moccasin Wallow Road to accommodate construction activities. Bud Rhoden Road will be closed at Moccasin Wallow Road through late October 2024, with a detour in place to direct travelers. Construction on Gateway Boulevard at Moccasin Wallow Road is expected to continue throughout the month of October 2024 (weather permitting), with a traffic shift in place to route travelers around the work zone. Traffic on Gateway Boulevard and Moccasin Wallow Road is being maintained.
