

Moccasin Wallow Road Improvements from U.S. 41 to U.S. 301

Project Update | June 29, 2026

SEGMENT 2 (115th Avenue East to Bay Winds Parkway):

Current Activities:

Storm drain and utility pipe installation remain ongoing throughout the work area. Curb and gutter construction continues, along with embankment improvements. Street lighting and sidewalk installation activities are also underway.

Crews continue preparing the roadway foundation for the future westbound lanes in advance of upcoming paving operations. While a limited number of utility crossings remain, most underground utility work throughout the project corridor has been completed.

In addition, a traffic shift is in place on Moccasin Wallow Road **between Bay Winds Parkway and Grand River Parkway**, with both eastbound and westbound traffic utilizing the newly constructed eastbound lanes. This shift will remain in place until construction is completed on the north side. Once finished, westbound traffic will be moved to the new north-side lanes. Final completion is scheduled for **late 2026**.

Please be mindful of the reduced speed limit within the construction zone. Construction activities are scheduled **Monday through Friday from 7 a.m. to 5 p.m.**, weather permitting.

ANTICIPATED COST AND CONSTRUCTION SCHEDULE

Construction Cost: \$35 Million

Construction Start: December 2024

Completion Date: September 2026

This roadway project widens approximately 1.8 miles of Moccasin Wallow Road from two lanes to four lanes (two in each direction) between 115th Avenue East to just east of Bay Winds Parkway and includes a 12-footwide multi-use path on the north side of Moccasin Wallow Road, a 6-foot-wide sidewalk on the south side, and 8-foot-wide bicycle lanes in each direction. Median openings are also being provided for access to most residential communities and the addition

of pedestrian-activated crossings, street lighting, and a signalized intersection at Sawgrass Road will improve safety and traffic operations.

Moccasin Wallow Road Improvements from U.S. 41 to U.S. 301

Project Update | June 29, 2026

SEGMENT 3 (Bay Winds Parkway to Buffalo Road/Wellness Drive):

Current Activities:

The contractor continues to install the water main, reclaimed water line, force main, and storm drain on the east end of the project as work progresses westward. Embankment improvements continue throughout the project area, and coordination efforts for private utility relocations remain underway. Utility relocations for Florida Power & Light (FPL) and Peace River Electric Cooperative (PRECO) are nearing completion, with removal of existing facilities expected to begin soon. While a few utility crossings remain, most of the underground utility work throughout the project corridor has been completed.

The temporary traffic signal at the intersection of **Moccasin Wallow Road and 71st Street** remains active and continues to operate as intended. Additionally, the traffic signal at Moccasin Wallow Road and I-75 remains fully operational.

Please be mindful of the reduced speed limit within the construction zone. Construction activities are scheduled **Monday through Friday from 7 a.m. to 5 p.m.**, weather permitting.

ANTICIPATED COST AND CONSTRUCTION SCHEDULE

-  **Construction Cost:** \$43 Million
-  **Construction Start:** September 2025
-  **Completion Date:** Mid 2027

This roadway project widens approximately 1.9 miles of Moccasin Wallow Road from two lanes to four lanes (two in each direction) between Gillette Drive (located just west of I-75) and U.S. 41. This roadway segment also includes a 12-foot-wide multi-use path on the north side of Moccasin Wallow Road, a 6-foot-wide sidewalk on the south side, and 7-foot-wide bicycle lanes in each direction. Median openings are provided for access to residential communities and the addition

of pedestrian activated crossings, street lighting, signalized intersections, driveway modifications, and dedicated turn lanes improve safety and traffic operations. Roadway drainage is improved with stormwater run-off directed to new linear ponds along Moccasin Wallow Road.
